MONTESSORI ACADEMY

APRIL NEWSLETTER ROOM 2

Hello Parents!

As Spring approaches we have a lot planned for the nice weather! We will be talking about parts of a plant, what they need to grow, as well as what comes from plants. The children will be able to work on planting themselves in our sensory bin. Since fruits and vegetables come from plants, that will also be a main focus in the classroom. We are going to be looking at the inside of fruits and vegetables, as well as painting with them. For a practical life work the children will help prepare a fruit salad, they will wash and cut a variety of fruits that we will have for snack.

Earth Day is this month, so we are going to prepare our garden bed for planting. We are also going to be hatching butterflies and ladybugs!

IMPORTANT CLASSROOM DATES AND REMINDERS

Fruit sign ups for our practical life work is posted on the parent board.

If you would like to bring snack one day this month please sign up on the calendar, which is on the parent board.

Please make sure to sign up for parent teacher conferences; signups will be on the door.

IMPORTANT ALL SCHOOL DATES AND REMINDERS
