

DECEMBER NEWSLETTER ROOM 9

Dear Families,

December will be a fun, exciting month full of hard work and celebrations! This month we will have our annual poetry, hot chocolate, Jammie day on December 20. We will also bake goodies for our Winter Celebration on December 21. Parents are invited to come to school at 10 a.m. for refreshments and STEM Challenges. You will test your science and engineering brains in collaboration with your child. It will be a fun way to end school before Winter Break. Sign-up sheets for both days will be posted next week.

This month our entire class will be learning about the different types of poetry and writing poems about the season. Holidays, Lights, Family and all the other magic of the season makes for vivid poems! Look for books coming home before break.

In Math this month our fourth years will continue to work on cross multiplication getting closer to abstraction. If you're a parent of a fifth year ask them to show off their square root skills. I'm blown away by the ability they all have to complete HUGE problems just with paper and pencil! Our sixths will start cube root having just discovered the cubing formula!

Another busy, fun, and productive month in Room 9! Let me know if you have any questions!
