

## DECEMBER NEWSLETTER Room 8

Dear Families,

Happy Holidays! This time of year can be so fun full of traditions and celebrations. It can also feel stressful trying to keep up and doing everything right. The first nightmare I ever remember having was that my mom decorated the Christmas tree without me. No pressure. To help myself from feeling overwhelmed and worrying about the next event or taking the perfect picture, I find ways to take time for myself, slow down and be present enjoying our family time. I wish you all a holiday season filled with loving laughter and warm hugs.

In the classroom, we are learning about landforms and physical geography in our cultural studies. We will also begin looking at geologic time known in Montessori as the Clock of Eons.

We also have a Passion Show on Fri., Dec. 14 where students get to share their passion with the community. Assembly will begin at 9:00 instead of 8:30.

We will have a winter solstice celebration on the 21st . Parents are welcome to join us for a winter STEM activities starting at 10 am.

### IMPORTANT CLASSROOM DATES AND REMINDERS

Birthdays:

Isaac - Dec. 18th

Please remember, as the weather dips, to make sure your child has proper gear. If there is snow on the ground students need snow pants, snow boots, jackets, hats and gloves.
