

MAY NEWSLETTER ROOM 7

Welcome Spring! For the month of May we will be focusing on the following topics:

Science: parts of the flower; parts of a tree

Life cycle unit: lady bug, butterfly, praying mantis and ant. The kindergartners will be writing stories based on what they have learned and making booklets. Activities will be available for classroom work in science and language that pertain to insects.

Practical Life: We will be planting an herb garden to be used year round. Items that will be planted include lavender, chocolate, mint, cinnamon, and basil for the class to touch and smell.

Sign Language: The students have really been enjoying our sign language unit. We will continue the unit by reviewing the signs we learned last month which include: people, sports and actions. This week we are learning about emotions and sign language phrases.
