

JUNE NEWSLETTER ROOM 4

Thank you Mom's for joining us for Mother's Day, we enjoyed your visit to our classroom!

Our sincere thanks also to Melissa Shively and Amy Davis for helping with our weekly trips to the school library throughout the year!

This month we are exploring the parts of the plant and examining many different seeds from a variety of fruits, vegetables and flowers. What are roots for? The stem? What do plants need to grow and produce seeds?

We will complete our study of Matisse by creating our own unique masterpieces from cut paper just like Henri!! We will begin to explore Mr. Norman Rockwell and his humorous sketches of the American culture.

Miss Christine & Miss Arabelle
