

# SEPTEMBER NEWSLETTER ROOM 9

Dear Families,

Welcome to another school year! I want to give a huge welcome to Miss Rachel who will be joining our classroom community! Rachel will be taking over Maddie's role this year. Maddie went to training this summer and joins our team as a lower elementary intern! While Maddie will be missed we are proud her time in here inspired her to continue her Montessori Education. Stop by and congratulate Maddie, I know she would love to see everyone!

We will be starting the school year off beginning day one! Our fourth years will begin the school year reviewing long division, and learning about factors and multiples. Our fifth years will be starting right off the bat with beginning square root and a fraction review. Our sixths will review integers and begin a long sequence that leads us to cube root. In our cultural studies we will conduct a variety of science experiments that lead us to the formation of the Universe and Earth. We'll start with a bang (pun intended)!

We will also have our first field trip of the year this month. We will go on our annual tour of Celebration Park and learn about the early tribes that passed through the area. They left petroglyphs as evidence of their presence and the kids love the tour of the area.

A fun and busy month!

## IMPORTANT CLASSROOM DATES AND

See me with questions!
