

JANUARY NEWSLETTER ROOM 7

My Dearest Families,

I hope you had a beautiful time with your family and friends over this Winter Break. I went to Kansas City, and had a great time with my family. Thank you all for blessing me with so much love last month. I truly have the best job!

Highlights this month are a 2nd and 3rd grade field trip. See below for more information. Also, we are starting Spelling Bee for Elem. 2 Jan. 17th, Elem 1 Jan. 24th, and the finale, January 31st. Come join us on Friday's assemblies for the Spelling Bee! We are so excited to have Ms. Shannon come in and talk to Elementary about Healthy Eating starting Jan. 6th. I am sure there will be some great conversations coming home regarding what healthy eating options are. One last agenda item is an Open House: Bring your Grown-up to School on Jan. 15th from 8:30-10:00. Can't wait to see all the parent support!

We are going to be starting the study of Earth such as biomes, landforms, and rocks. 1st graders will be studying volcanoes. 2nd graders will be looking more specifically at the rock cycle and Mountains. 3rd graders will be choosing a River, and doing a report.

Math: 1st graders are working on addition and subtraction facts. 2nd graders will be working on factors of a product. Please make sure they are still working steadily on multiplication at home. 3rd graders will be doing a Capacity Unit and diving into division work. This is going to be a great month full of learning and growth. I could not be more excited!
