

JANUARY NEWSLETTER ROOM 3

Welcome back! I hope you had a wonderful holiday break. I know all of us will get back into our normal routines in no time.

In geography we will start to learn about difference of land, air and water. As well as the different types of land forms. We will start with islands and lakes by looking at clay forms, puzzles and finding these landforms on maps. Our continent studies will take us to Asia this month. We will look at biome and country maps, color flags, and learn about the different animals that inhabit the land.

Our animal classification studies will focus on the reptile family. We will learn what makes an animal a reptile, we will look at books, pictures and our own classroom reptile; Mali the lizard.

The children will also learn how to shred and whisk soap, practice with the zipper frame, button frame, and shoe tying. They will learn about primary colors and how to mix them to make the secondary colors.

IMPORTANT CLASSROOM DATES AND REMINDERS

Just a reminder that with the winter weather in full force the children need to be dressed properly to enjoy their cold and wet recess times. We ask that the children have a coat, hat, gloves, and snow boots. Snow pants are only needed when there is snow on the ground. Please label everything!

Malia's 4th birthday on the 20th

Phoenix's 6th birthday on the 27th

****Don't forget to signup on the snack calendar or for pizza lunch!**
