

FEBRUARY NEWSLETTER ROOM 2

Welcome to February! Our focus this month will be on friendship, Valentines, and Owls. With each focus brings many learning opportunities for everyone!

Our social skills focus is understanding what being a good friend means at this level. Learning to share, take turns, and express themselves to each other using kind words. This will carry over into our Valentine fun! Due to our Spring Professional Development date landing on Valentines Day, we will celebrate on Thursday February 13th. It is PJ day!!!! We will be making Valentine bags. If each student that would like to participate in passing out Valentines, please send 12 Valentines for each friend. Just fill out the from who. We will take care of the rest!

Our studies with Owls will include looking at parts of an owl, their habitat, and fundamental needs. We will dissect an owl pellet and learn some names of owls. In language, we will continue our focus on those basic literacy skills, reading left to right, re-telling a story, sequencing beginning, middle, and end, and for some begin work on recognition of our alphabet and the sounds of "O". Math will build on our skills and stretch to numeral vs quantity 1-10, our geometric solids of cube, cone, sphere, rectangular prism, and cylinder, our basic shapes to include hexagon, pentagon, and octagon. Finally in art, continue our study of colors!
