## MARCH NEWSLETTER ROOM 9

Dear Families,

Spring is in the air! March will be a month full of hard work, and hopefully a restful break! We will continue learning some amazing concepts and continue looking for ways to ever strengthen our community. We will be welcoming our third graders to work in our class and join our classroom activities.

This month we will be looking at the concept of exponential growth with the fourth years as well as operations with fractions. They will also begin looking at early civilizations and continue to work on responding in writing to non-fiction text. The fifth year students will wrap up their summaries of *The Iliad* as well as our study of the human body and animal systems. Our sixth year students have plunged into cube root of HUGE numbers and continue algebra and Island Projects.

We will have our last virtue assembly on March 6 at 1 p.m. focusing on Civility. To wrap up we will be creating our own virtue film to serve as a reflection piece as well as a fun way to share what we learned. We will share our film on April 3 at the 1 p.m. assembly.

Another fun month ahead!
