

MARCH 2019 NEWSLETTER

Reflections on February: We had a lot of fun exploring the moon, discovering that the moon is always there and understanding why we see it's different phases. We learned about the moons attributes, such as; no wind, no oxygen and how the gravity differs from earth. We imagined what it would be like to visit the moon. Our discoveries led us to conversations about craters, meteors and asteroids. Do we have craters on Earth?.....

On the Horizon-March: This month we will explore art. We will ask the BIG question....What is art? Is it just paintings? Do we all have to agree? We will compare the style of different artists and their works. I look forward to exploring what inspires your children and creating our own original works of art!

Thank you for the clothing labels! We have really seen an increase in labeling and it helps greatly.

Miss Debbie Miss Nina

IMPORTANT ALL SCHOOL DATES AND REMINDERS
