

OCTOBER NEWSLETTER ROOM 3

The children are settling into the classroom routines and are focusing on their works nicely. As a class we are working on what it means to be kind, respectful, and peaceful to each other.

This month we will learn about the different biomes that make up our planet Earth (Deserts, Grasslands, Tropical Forests, Temperate Forests, Oceans, Mountains, Wetlands, and Polar Regions). We will talk about the different animals, plants and weather that make these special.

In honor of the new fall season, we will study leaves and pumpkins. We will explore these topics through books, pictures, art, and other hands on activities. We will also learn about the parts of a leaf and all the different types of leaves.

This year for our kindness and community studies we will read a different book each month by Diane Alber. This month's book is called, *Splatter*. We will talk about working together and not giving up. This book will also teach us about color mixing.

Lastly, **Parent/Teacher Conferences** will be on **Thursday, October 22nd and Friday, October 23rd**. More information to come.
