

MONTESSORI ACADEMY

NOVEMBER NEWSLETTER ROOM 9

Dear Families,

I continue to be impressed by your kids and the perseverance they show in everything. Wax Museum was impressive on all levels as were our parent teacher conferences. This month we have more opportunities in store!

We will be performing our annual Stone Soup just in a modified fashion. We will film it this year so it can still be shared community wide! We will also make soup in class, adjusting for sanitation purposes. Look for a sign-up sheet on Seesaw coming soon.

This month our class is going to continue with high level math work. The fourths will continue mastering long division. The fifth-year students will move toward abstraction of square root and the sixths will continue their cubing sequence. It's simply amazing what they can do with materials! We will also continue daily journal writing and reflection on Seesaw. I got feedback from all of you about how much you are enjoying reading what your kids are writing to start their day. I surely am!

Another great month of learning and collaborating in room 9! See me with questions. I continue to offer office hours every Wednesday at 3:15!

IMPORTANT CLASSROOM DATES AND REMINDERS

November 6 - Teacher Hosted Assembly 8:45 Zoom # 393 132 6434 (password: room 9)
