

March Newsletter - Room 10

Dear Families,

I love this time of year when the days will start to get warmer again, yay!

As the weather starts to get warmer in the afternoons, our recess is still in the mornings and it can be very chilly. Please continue to send warm jackets to school for your children. The students can always take them off if they want to however, many of them still get pretty cold during our early recess.

This month is literacy month, we will have lots of reading going on. Please be sure to “read” Ms. Kim’s newsletter. It has information about what we are doing for literacy month. Your child may bring a book to school to read everyday.

This month our geography study is South America. We will learn lots of fun facts about this continent. We will also learn about amphibian for our vertebrate study. The students love frogs and salamanders and learning about their life cycle.

We will talk about Seasons and recognize that the first day of spring is March 20th! The students will also have fun exercising for our health curriculum.

We have a fun and busy month ahead. I am also looking forward to these last 3 months of school, we have lots to do, lots to learn, lots of fun!

~ Ms. Judy
