

MARCH NEWSLETTER ROOM 4

MONTESSORI ACADEMY

Dear Families:

March already! We are three months from the end of the school year. Time goes by so fast. It's been a great year despite all the changes in our school and classrooms. One of the changes that I have to say was a benefit to our students was walking into the school independently. The children felt so empowered and could be seen in their work throughout the day. I think we should keep that one, what do you think?

March themes start off with South America, learning about the people, animals, and culture. Next up Amphibians with a focus on frogs. And ending the month with polygons.

Mindset

Developing the right mindset early on is crucial for a successful, happy life. When kids learn that putting forth effort and using the right strategies can help them get better at things, they feel empowered, and try harder. When they know their brains are capable of growing, they are more confident, resilient, and are not afraid to fail!
