

May Newsletter Room 2

Dear Families,

We are at the end of our crazy school year! We made it! This month we will be focusing on the continent of Australia. We have learned about all five classifications of vertebrates (mammals, birds, fish, reptiles and amphibians). Now we will focus on invertebrates mainly insects. We will be learning all about the different parts of plants, flowers and seeds. May 28th we will be having our monthly community lunch. May 28th is the last day of school. That day will also be an early release day at 12:30. If your child has a birthday in the summer months we will be preforming their birthday celebrations this month. It has been a great year with everyone and I have loved getting to know all of your children!

Thanks,
Ms. Ashley
