

## APRIL NEWSLETTER ROOM 3

With spring here, we will focus on this beautiful season by exploring the outdoors. Our science subjects this month will continue with weather, clouds and the water cycle. We will also learn about magnets and what type of objects sink or float.

In honor of Earth Day we will talk about what it means to be an environmentally conscious citizen. We will learn about pollution and ways to take care of Mother Earth. If the weather cooperates, we will plant some flowers and start a small garden.

Our geography studies will take us to Africa. We will learn about the unique animals and biomes that make up this great continent.

Our animal focus will be on the classification group of birds. We will read about birds and look outside at all the birds that wonder by our classroom.

*Scribble Stones* by Diane Alber is our book of the month. Unfortunately, this is the last book in the series. The book wraps up all the themes of kindness, working together and that art is anything you want it to be!

The weather will still fluctuated wildly this month. Please help your child pick appropriate clothes to wear and bring to school. The temperatures will be very different from morning recess to lunch recess to after school recess.

### IMPORTANT CLASSROOM DATES AND REMINDERS

Our **Parent Teacher Conferences** sign up sheets will be available soon! Please take a moment to sign up for your half hour slot. There will be no school on those days.
