

APRIL NEWSLETTER ROOM 9

Dear Families,

We have a lot as usual planned for the month of April. Our school along with a generous family will host a Drive-In Movie Night! We will show the movie “Beethoven” and the cost will be \$25 per car. This will be an opportunity to connect with our school community after a challenging year and raise money for our PTO! The movie night will be on April 23, with the movie starting at 8:30. Frontier Drive-In in Emmett will host the event. Look for flyers coming home with details and directions!

We will also celebrate Earth Day (April 21 due to parent/teacher conferences) as a school community with a working afternoon enhancing our outdoor environment. Look for a sign-up sheet in your inbox. We will be requesting some parent donations for items like soil and other projects that your child can choose. This is a lovely day and the children enjoy being able to make our playground beautiful, it also creates an element of ownership in their playground!

This month we will begin preparing for a show night! I will share dates as I solidify them, but we will film our show this year and show it at the Frontier Drive-In in late May. I am so excited to have the opportunity to bring back this tradition in a new and creative way. I will need parents to help with costuming, we have picked our roles so check with your child! See me with questions!

This month our fourth-year students will continue work with fractions and decimals as well as looking at ancient civilizations. Our fifths will wrap up our systems unit and begin some pre-algebra. Our sixths will look at the Civil War and continue to dig very deep into algebra!
