

## APRIL NEWSLETTER ROOM 7

Hello Room 7 Friends!

More Vertebrates?!! Yes! This month we are headed on a safari to Africa! And on our journey we will meet a new group of vertebrates, reptiles. Along the Nile River we will find crocodiles and deep in the Amazon we will find pythons and chameleons! We will continue to learn about the other vertebrates introduced, that is birds, mammals and amphibians as we explore our new continent of study. The life cycle of plants, ladybugs and an introduction to the water cycle will also help us understand the changing season.

Our study in music will have our toes tapping to Louis Armstrong, famous jazz musician from New Orleans. His nickname of "Satchmo" began with a friend who told him that his mouth was as big as an open satchel! His nickname would change to "America's Goodwill Ambassador" because of his winning smile and friendly nature.

*Miss Christine & Miss Ashly*
