

MAY NEWSLETTER ROOM 7

Hello Room 7 Friends!

Spring has sprung and we are heading “down under” to the continent of Australia! It will be fun to explore more fascinating animals and beautiful landscapes as we venture back into the southern hemisphere. Along our trip to the “Outback” we’ll have some fun with songs like Kookaburra and Waltzing Matilda.

Last month we got to watch ladybird beetles grow from larva to pupa then into full grown ladybugs and we released them into our side-yard garden the day before Earth Day. It was an exciting time, many “insects” attended.

Throughout the month of May we will learn about many other insects, the life cycle of plants and flowers.

Our artist will be Georgia O’Keeffe most noted for her paintings of beautiful flowers.

Miss Christine & Miss Ashly
