

Room 5

# September 2021

Ms. Amanda & Ms. Christina

**MONTESSORI ACADEMY**

Hello Families!

Welcome to Room 5! September is an exciting month when we get to learn all about our new classroom and the friends who will be joining us. We will focus on routine, creating a peaceful classroom, independence, and completing the work cycle (take it off the shelf, use it properly, and put it away).

We still have our classroom fish, his name is Gary. In our tank we also have two Ghost Shrimp and a snail. Learning to care for animals is a big part of practical life skills. Look for items we might need for Gary or for the classroom on our practical life sign up sheet outside the door!

We will also welcome Ms. Christina to our classroom! She is going to be the assistant teacher in room 5 as well as planning the afterschool program. She has her Bachelors Degree in Elementary Education and joins us with a lot of experience working with children of all ages. We are so excited to have her join us!

We will also cover topics such as the season of Fall/Autumn, trees, Planet Earth, living versus non-living, and air, land and water. Additionally, we will be studying Classical Music and the composer Wolfgang Amadeus Mozart. We will listen to music from his time period and learn about the life of Mozart. We will also study an artist each month. This month we will study Louis Sullivan, a famous American architect and was often called "the father of the skyscrapers."

I am looking forward to another school year and getting to know all your children. I am lucky to be able to share my days with them!

Ms. Amanda
