

MONTESSORI ACADEMY

DECEMBER 2021 NEWSLETTER

As we move into the festive month of December we will talk about traditions and share traditions we have with our families.

This month we will explore hibernation, migration and adaptation. We will also begin to explore Europe and measure travel distances. How long will it take to get to New York, Texas, Europe? What is a mile? We will use our 1000 bead chain to simulate miles.

In November we explored the different materials used in sculpture and chose tin foil as our medium. It was harder to manipulate than we thought, but so fun! We also looked at some examples of performance art, such as Mummenschanz. In December will create our own Picasso and pop art!

As always, we go outside in all weather. Please send in appropriate gear with your child.

Miss Debbie & Miss Savannah

IMPORTANT CLASSROOM DATES AND REMINDERS
