

APRIL NEWSLETTER ROOM 7

Dear Families,

We hope you all enjoyed your beautiful, relaxing spring break with your kiddos. We are back into the full swing of learning. This month we have a lot of fun planned with Earth Day clean-up and Poetry month.

In the classroom, first graders who have mastered all their addition facts will be learning multiplication. Second graders who have mastered multiplication facts will start division. Third graders will start working on test tubes.

First graders will be learning all about biomes and be doing a big biome project. Second graders will be doing a big country report. Third graders will be doing a state report. Stay tuned for information coming in email. We will be going in depth with the Timeline of Life, and diving into the Timeline of Humans. Yay for our rich Cultural Curriculum!

Please stay tuned for an email about our Earth Day clean-up on April 29th.
