

MARCH 2022 NEWSLETTER

Dear Room 2 Families;

March comes in like a lion and goes out like a lamb! Springtime is a great time to unearth new growth and exploration! We will be looking to nature this month to continue our own growth through all the areas of our Montessori classroom.

You should also be on the watch for your child's winter progress report that helps track growth over a 3 year layout of Montessori experiences. Should you have any questions, I welcome you to email me directly. Looking forward to another month of learning and fun!

Art Explorations: We will explore the relationship of light and color. We will be asking the question "What is a rainbow?" and "How do we see color?"

Cultural Focus: This March we will be studying South America on our cultural shelves. The flags, food, and animals of S. America are just a few of the things we will look at. If you have a South American artifact, travel story or post card feel free to share it with Miss Debbie.

Science: Spring is around the corner and with that we will be talking about the seasons changing weather and all it brings. We will be asking the questions "Where do colors come from and how are they made?" Exploring the rainbow in the month of March will help as we further research colors.
