

April Newsletter Room 7

Dear Room 7 Families;

Happy Spring! It's so beautiful and exciting to welcome the new season. We will certainly keep busy learning about all the changes that this season brings.

Please be sure to continue to send in your child's water bottle and a sweater or jacket for those cooler days.

Composer of the Month: We'll explore two famous brothers who composed and played musical instruments. Both led orchestras but Jimmy Dorsey played the clarinet and his brother Tommy played the trombone. So many people danced and enjoyed their music in the mid 1900s.

Artist Study: We will learn about American Artist Mary Cassatt. She painted many portraits of Mothers and children and people doing everyday activities like reading, boating and sewing. Did you know that she became good friends with Edgar Degas and also knew Claude Monet.

Science: We'll be celebrating Earth Day on April 20th this year. Of course our celebration wouldn't be complete without a ladybug release in the school garden and learning all about these helpful insects!
