

Fabulous fall! I do like fall best of all, with all the beautiful colors all around. I love the crunch of dried leaves while taking a walk, and the start of soup season, and bringing in the harvest.

November Themes,

Leaves, leaves, leaves! The shapes, the colors, why they change colors and, the parts of a leaf as well as the different types. Our study on the biomes will begin, learning about deserts, wetlands, tundra, forests, oceans, grasslands and mountains. Continent focus will be North America. And learning the names of the geometric solids.

Character trait focus: Anger, Respect, Thankful

Music genres: Big Band

Our celebration of Thanksgiving and Harvest will be making **Stone Soup**. On November 18th you will be asked (sign-up genie) to bring a portion of ingredients for stone soup, that we will cook in our classroom all morning and enjoy the smell in anticipation of lunch.

I'm sure you have heard about Snowflake; our class bird has died. So sad she was very sweet. I am on the lookout for another bird, doing some research for maybe something different, but it must be small and have a quiet sound, not an easy task.

CLASSROOM DATES AND REMINDERS

November 18th: Stone Soup, I will send a sign-up genie out to help with food items.

Birthdays: Brooks Caywood, Brady Scott, Kirra Klass, Emerson Adams

ALL SCHOOL DATES AND REMINDERS
