

OCTOBER NEWSLETTER ROOM 9

Dear Families,

September flew by! Our year is off to a great start having just returned from a week of science and community. Students are working hard to get back into the flow of the year.

This month is going to bring us some exciting projects. 6th years are starting their island projects, 5ths are diving into the timeline of humanity, and 4ths are learning about atoms, molecules and matter.

As a class, and a school, we are also starting our Wax Museum projects! Your student has chosen a valuable historical figure to study and learn about. They will have the opportunity to “become” this person and present their accomplishments. Please keep an eye out for more information about requirements and deadlines.

This month also brings us to our first parent/teacher conferences. These will be held October 20th and 21st. Sign up sheets will be available soon. I’m looking forward to meeting to share your student’s progress.

IMPORTANT CLASSROOM DATES AND REMINDERS
