

JANUARY NEWSLETTER ROOM 3

Welcome back! I hope you had a wonderful holiday break. I know all of us will get back into our normal routines in no time.

In geography we will start to learn about the different types of land forms. We will start with islands and lakes by looking at clay forms, puzzles and finding these landforms on maps. Our continent studies will take us to Asia this month. We will look at biome and country maps, color flags, and learn about the different animals that inhabit the land.

We will start our animal classification studies this month by focusing on the mammal family. We will learn what makes an animal a mammal, we will look at books, pictures and talk about how we are mammals.

The children will also learn how to shred and whisk soap, experiment with magnets and what sinks and floats. We will also learn about primary colors and how to mix them to make the secondary colors.

IMPORTANT CLASSROOM DATES AND REMINDERS

Just a reminder that with the winter weather in full force the children need to be dressed properly to enjoy their cold and wet recess times. We ask that the children have a coat, hat, gloves, and snow boots. Snow pants are only needed when there is snow on the ground. Please label everything!

Birthdays

Fallon is 4 on the 1st

Julianna is 4 on the 9th

Cadence is 4 on the 27th

IMPORTANT ALL SCHOOL DATES AND REMINDERS
