

February 2023

Room 4

As we move into the second half of the school year. I can honestly say that our class has grown in leaps and bounds. The learning in our classroom is amazing in all age groups, with new readers weekly and new concepts understood through repetition and perseverance. Montessori at its finest!

Valentine's Day celebration will be February 14th. Children can bring a card and small treat to share with friends. All items will be sent home for you to look at and read with your child. A list of names will be sent out if you would like to address them, or they can be addressed to "a friend". For the collection of cards please decorate a small box with a wide slit on top. Make sure to bring it on Valentine's Day!

Our focus this month in geography will be Oceans around the world. We will locate them and name them. We will also identify land and water forms and explore things that sink and float. Fish will be our animal study, what makes a fish a fish?

Social/Emotional Concept: Honesty. Empathy and Love

Music genres: Pop

Independence and movement: Children learn by doing, and this requires movement and spontaneous investigation. Children touch and explore everything in their environments. The mind is handmade, through movement and touch, the child investigates, manipulates, and builds up a storehouse of impressions about the physical world around them. Even the very young if they had the words would say, "Help me learn to do it myself."

All School Bulletin

Happy Birthday Joshua on February 8th, turning 5 years old
