

March 2023

Hello Families,

As we move into the final three months of school, we are busier than ever in our class. The learning that I watch unfold is amazing. It's a time when I say, "these kids are awesome, and I get to be part of their learning". I truly thank each of you wonderful parents for giving me the privilege of knowing your children.

Our focus this month in geography will be Australia, "the land down under". Also, with the warmer weather comes insects and butterflies, so we will be learning about them.

Bird sitter: If you would be willing to have our birds during spring break, let me know. They are very easy to have just fresh water every day, food when needed and loves peas and celery leaves chopped up for a treat.

Character trait: Confidence and Belonging

Music Genre: Disco

CLASSROOM DATES AND REMINDERS

March 2nd. Cordelia turns six years old!

March 22nd. Grayson turns 4 years old!

March 23rd Elle turns seven years old!
