

March 2023

Dear Families,

Happy March! Spring is just around the corner. This month we will be studying the continent of Australia. This will include political and biome maps, food, culture, animals, etc.

We are continuing our study of animal classifications with invertebrates and we will be reviewing all classifications we have studied this year so far. In addition, we will do an overview of the seasons and different kinds of weather.

For art this month, we will be studying the color wheel. Students will learn primary, secondary, and tertiary colors and how they are made.

Let's have a great month!

Ms. Laura

IMPORTANT CLASSROOM REMINDERS

Please do a quick clean out of cubbies before spring break. Then we can come back in April all clean and ready for spring.
