

**Room 9
May 2023**

Dear Families,

Spring has sprung and we are nearing the end of the school year! We are trying to absorb every moment of nice weather and have been trying to spend more time outdoors.

6th graders are busy writing their graduation speeches, reviewing math and geometry concepts and preparing to share their yearlong island projects at their graduation later this month on May 30th at 10am.

5th and 4th years are finishing up some big writing work as they complete their summaries of the Odyssey and Gilgamesh.

3rd years are beginning to join our classroom for work time to work on their own assignments and prepare for their transition to upper elementary next year.

****Please help your child be aware of the weather and what they need: water bottles, hats, sunscreen, etc... so that they can enjoy recess time.**

Summer birthdays to celebrate this month:

Jacob Anderson	June 2nd
Preston Hansen	August 1st
Koa Iupati	August 4th
Kellen Watts	August 7th
Sophia Aella	August 16th
