

September 2023 Room 4

Hello Families

Welcome back to my returning friends, and welcome to our new friend joining our class this year. Summer is nice with fun in the sun, vacations and relaxing with a good book. But getting back into routine with friends and begin learning is best! My summers are filled with getting ready for the new school year, making new materials is one of my favorite things to inspire and encourage children to love learning.

The year opens with grace and courtesy in the classroom, and on the playground. We will discuss the “rules” that keep us all safe. We will start big with the Universe, move to the milky way and from there the planets. In science we will explore vertebrates and invertebrates and focus on mammals. Can’t forget the shapes, shapes of all kinds!

Thank you for entrusting me to your children. I’m looking forward to a wonderful year filled with making friends and lots of learning. At any time, please feel free to contact me via email or phone, I’m happy help in any way I can.
