

September 2023 Room 6

Hello Families!

Welcome to the 2023-2024 school year! We are so excited to welcome everyone back to school in person. The first few weeks might be an adjustment for some, but we will do our best to make the transition back as easy as possible.

Our work time will begin at 9:00 am, with group starting promptly after. Please have your child here on time so they can participate and be prepared for the school day, as we will be learning and practicing our daily routine.

This month's focus will be learning all about our planets and what makes up our Solar System. We will be working on various Practical Life, sensorial, and science works to get a better understanding of space.

Please feel free to contact me with any questions or concerns via email at
