

April Newsletter

Room 3

Hello Families,

Spring is here! We will focus on this beautiful season by exploring the outdoors. Our science subjects this month will continue with the seasons, types of weather, and the water cycle. We will also start learning about plants by looking at the lifecycle of a plant and the different parts that make up a plant.

In honor of Earth Day we will talk about what it means to be an environmentally conscious citizen. We will learn about pollution and ways to take care of Mother Earth. If the weather cooperates, we will plant some flowers and clean up around the school. The school as a whole are working together to make a ribbon Earth on the elementary fence to your left as you enter the school. Please take a minute to take a look.

Our geography studies will take us to Africa. We will learn about the unique animals and biomes that make up this great continent.

The weather will still fluctuated wildly this month. Please help your child pick appropriate clothes to wear and bring to school. Also, please take a moment to check your child's cubby for weather appropriate extra clothes.

Our **Parent Teacher Conferences** sign up sheets will be available soon! Please take a moment to sign up for your half hour slot. On Wednesday, April 24th there will be afternoon spots available for those who are all ready enrolled in the afterschool program, there will be no additional care. On Thursday (25th) and Friday (26th) there will be no school but childcare will be available during your conference time.

Birthdays

Jax's 5th birthday on the 4th
