

April 2023 Newsletter

Dear Families,

We hope you all enjoyed a beautiful, relaxing spring break with your kiddos. As the weather begins to warm, we hope to be spending more time outside, working and learning. Please make sure your child is dressing for the weather and is bringing a water bottle. The weather heats up quickly in the afternoons.

In the classroom, we are preparing for parent/teacher conferences. These will take place toward the end of the month. We will send out an email regarding sign-ups. This time, all students will lead their own conference and share their hard work with you.

Sixth years are nearing completion of their island projects. Fifth years continue learning about ancient civilizations. Fourth years have completed studying Mesopotamia and are ready to jump into Ancient Egypt.
