

October 2024

Room 6

Hello Families,

Welcome to our second month of school! We spent September creating routines, getting to know one another and finding our place in the universe. This month we will explore simple and compound leaves, pumpkins, skeletons and the bones in our bodies. We will also learn the difference between vertebrates and invertebrates. We will move on to discuss mammals. We will introduce the 7 continents and study our continent of North America. Lastly, we will learn about Pablo Picasso before his birthday on October 25th. We will end October with a Halloween costume parade on Thursday, October 31st. Parents and families are welcome to come watch. Please no masks or weapons.

A few housekeeping notes. The schedule posted outside the classroom isn't correct. We eat lunch at 11:30 and go outside from 12:00-12:30. Lunch is a quiet time where the sole focus is eating. Therefore, we ask that you pack a full lunch for your child. A microwave is available for lunch "warm-ups." Students are encouraged to eat their healthy food first, meaning fruit, vegetable and protein. If you need suggestions on lunch items, please reach out and we can email you some ideas.

It has been so fun getting to know all of you are your amazing kiddos. I am looking forward to another great month!

Sincerely, Ms. Amanda
