

February 2025

Room 3

Dear Families,

February is here! Hopefully there will be news that spring will arrive early. Keep your fingers crossed!

This month our continent focus will be on Antarctica. We will look at Antarctica's biome map and discuss how the size of Antarctica changes during the seasons. We will also learn about the different types of animals that inhabit this icy continent.

We are continuing to learn about shapes by exploring the triangle boxes. These boxes show us how some shapes can be made by connecting triangles together. We will talk about how shapes and solids are similar but different.

In science, we are continuing our study of magnetism. We will begin learning about solid, liquid, and gas. Hopefully, it will snow and give us hands-on experience with the various states of water.

On **Thursday, February 13th** it will be the **100th Day of School!** We have been counting the days with the golden bead material. Your child is invited to collect 100 items from home to bring into the classroom to share. Think of small items that are easy to transport to school. Examples: stickers, noodles, crayons, Legos, marbles, barrettes.

The winter weather is still here! Children need to be dressed properly to enjoy the cold and, possibly, snowy recess times. Children should have a winter coat, hat, mittens/gloves, and snow boots. Snow pants are only needed when there is snow on the ground. Please label everything!

All School Bulletin

February 5 –

Montessori Math Exploration,
8:30 am

February 7 & 21 –

Library Day

February 7 –

Superbowl Spirit Day!
Wear your favorite sports
team attire
