

March 2025

Elementary

Dear Families,

Spring is in the air and our classroom is buzzing with activity! March brings new learning opportunities, exciting projects and a chance to explore the changing of seasons.

This month we will learn about simple machines. Students will put their knowledge into practice by designing a Leprechaun Trap. Traps can be worked on for homework and are due March 14th

Classroom Highlights:

Lower Elementary (Grades 1-3)

- **Living World:** timeline of life
- **Math:** continued work with place value & operations using hands-on materials
- **Language:** reading comprehension, prepositions
- **The Universe:** maps and the continent Antarctica

Upper Elementary (Grades 4-5)

- **History:** ancient civilizations and their contributions to modern society
- **Math:** continued work with fractions, decimals & geometry using real-world applications
- **Language:** refining research and writing skills.
- **Science:** the human body

We invite you to join us on **Wednesday, March 4th at 8:30** to watch your student at work! Children will choose 3 works to share and demonstrate. If you are unable to make it, please let us know and we will arrange another time to accommodate your schedule.

Warmly,

Maria & Aryn, Montessori Elementary Guides
