

March 2025

Room 3

Hello Families,

With spring fast approaching, we will start studying the weather and the seasons. During our weather unit we will also learn about the water cycle. Keep an eye out for graphs in the classroom.

This month our continent focus will be Australia. We will look at Australia's biome map and discuss the unique types of animals and plants that inhabit the continent.

Our geography lessons will focus on the 5 oceans of the world. We will work with the ocean map and learn about the different layers of the ocean. We will discuss the types of animals and plants live in the biggest biome of the world.

Even though there is no snow on the ground, the playground is still wet and muddy. Please ensure that your child has appropriate outside boots to wear while at recess. Our shoe mats are getting full because some children have multiple pairs of boots/shoes. Please double check your child's collection. **Please only 1 pair of outside boots and 1 pair of inside shoes.**

All School Bulletin
