

April 2025

Room 6

Hello families,

Spring is here! Hopefully, April is a month full of warm and sunny weather!

This month, we will explore insects, such as the ant and grasshopper, that begin to appear in spring. We will not focus on a specific continent this month but rather we will discuss our Earth home. We will look at ways to recycle and how this practice benefits our earth. We will also learn about the water cycle. We will read some poetry to celebrate National Poetry Month. Lastly, we will study the color wheel. On April 22nd, we will do some fun activities to celebrate Earth Day!

Picture day for our class will be Tuesday, April 15th. This is a free-dress day. We have a "Watch Me Work Wednesday" on April 16th. We invite all parents to come and watch their child work! Students will select three works to show and share with you. We will start right at 9:00 am that day.

Parent/Teacher Conferences are April 24th and 25th. There is no school that day. Childcare is available for your timeslot only.

Sincerely,

Ms. Amanda

All School Bulletin
